HOW TOS

This is what I added features to my project:

Button feature

```
<input type="text" class="form-control" placeholder="Search Country or City">
<div class="input-group-append">
<button type="submit" class="input-group-text btn">Search</button>
</div>
</div>
</section>
<section class="features">
```

As you can see, if you click any buttons its work.
