

## Implementation of head tags

In my previous challenges regarding to my project, I already Implemented the head tags, and this is how I implement it:

```
<section class="header">
<div class="container">

<button type="button" class="login-btn">Login</button>
</div>
<h1>Travel Across The World</h1>
<p>Subscribe Now</p>
<div class="input-group">
<input type="text" class="form-control" placeholder="Search Country or City">
<div class="input-group-append">
<button type="submit" class="input-group-text btn">Search</button>
</div>
</div>
```
