

Video and Form

This is how I linked the video and added contact form to my project:

```
26 <div class= "feature-video">
27 <video controls src="video/10000000_6818687354927123_100728462086752802_n.mp4" width=500>
28 </div>
29 </video>
```
